Re: 911 Turbo S2

Dear Dealer Principal:

We are proceeding with the retrofit of the 20 1992 Model Year 911 Turbo S2s. Completion and dealer shipment is anticipated by late August - mid-September. The following equipment changes/parts apply:

Conversion Process - Engine

Remove cylinder heads
Adjust valve spring shims for 964 camshaft lift
Install 964 camshafts, set valve clearance and timing
Replace intercooler with exchange part
Replace turbocharger with exchange part

Parts Exchanged

Cylinder Head Gasket Kit
Intercooler
Camshaft 1-3
Camshaft 4-6
Drive Extension
Turbocharger

The Monroney label for these units will note that this is a Turbo model with the additional S2 option notation. The suggested retail price for the option will be \$10,065. The corresponding dealer invoice amount is \$8,650.

For status information, please contact Klaus Wohlgemuth, Manager, Vehicle Distribution and Logistics at (702) 348-3090.

A complete listing of Standard Equipment is enclosed. A listing of the 20 units is also enclosed.

Your support is very much appreciated.

Sincerely,

Richard S. Ford
